Project meeting in Paris

On April the 12th and 13th, E-Seniors hosted the second project meeting of the EDUSEXAGE project in Paris. It was a good opportunity for partners to meet face-to-face and improve cooperation. Representatives of all partners institutions discussed the ongoing process and planned future activities. In particular, PR1 outcomes were planned and discussed, more of that you can read below.

HERE'S WHAT WE HAVE BEEN UP TO

PR1 “Users’ requirement report”

The EDUSEXAGE partners are now working on the Project Result 1, the “Users’ requirement report”. This document will summarize all the research phase work done in each institution to detect the needs of the 65+ target group in terms of personal relationships and intimacy.

Each partner is collecting data through an anonymous questionnaire for seniors who find it difficult to talk about these subjects and a focus group for those who are more comfortable with the issue.

The research report is expected to be available by the beginning of July 2022.
