Project results update

The PR2 “EDUSEXAGE learning course to empower seniors” and the PR3 “EDUSEXAGE learning course for educators, other professionals and informal caregivers” are in the validation process! Partners have carried out a testing phase of both courses in each country: France, Ireland, Spain, Slovenia and Italy, collecting data from a total of 40 participants for PR3 AND 32 for PR2. The feedback was overall really positive and partners are currently finalising the validation phase of these project results.

IN THIS ISSUE

- PR2 and PR3 available in all partners’ languages
- PR2 and PR3 validation process
- Project conclusion

A 2 YEARS PROJECT WORTH OF RESULTS!

Project conclusion

The EDUSEXAGE project is close to its conclusion. It has been a great and productive experience, involving six countries and seven organizations. The project reached many older adults and professionals, exploring a sensitive topic in the hope of helping raise awareness and overcoming the still common related taboos. All project’s results will remain available, for free, on the project’s website and platform.

project results feedback

I find it useful
open up about
certain
situations, to
help people talk
and educate each
other

Many
important
topics are
addressed

Very
useful

All topics
were relevant
and highly
informative

As this is my
first time this
topic has been
brought to my
attention, I
have learnt a
lot

It was
very well
presented

I think this
course is vital
for all social
workers as well
as health
assistants

Well
designed
modules

I found the
content very
informative; I
really enjoyed
the videos

Very useful
information
that is not
talked enough.
Great platform
